out of 843 votes

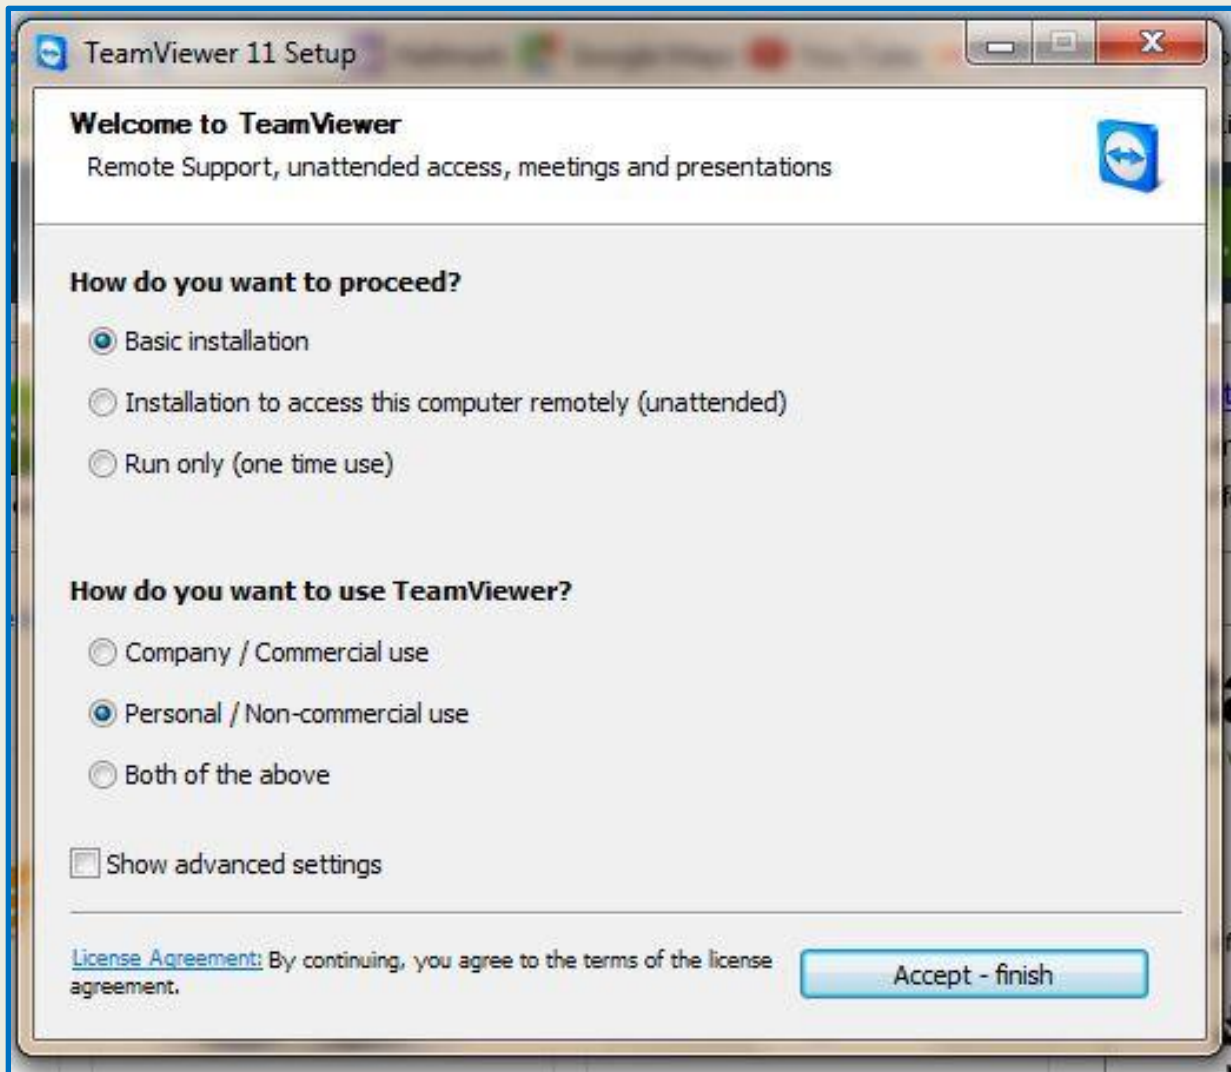

Click n the **Download Now** green button to begin the download and Save File to your desktop or Download folder as you prefer.

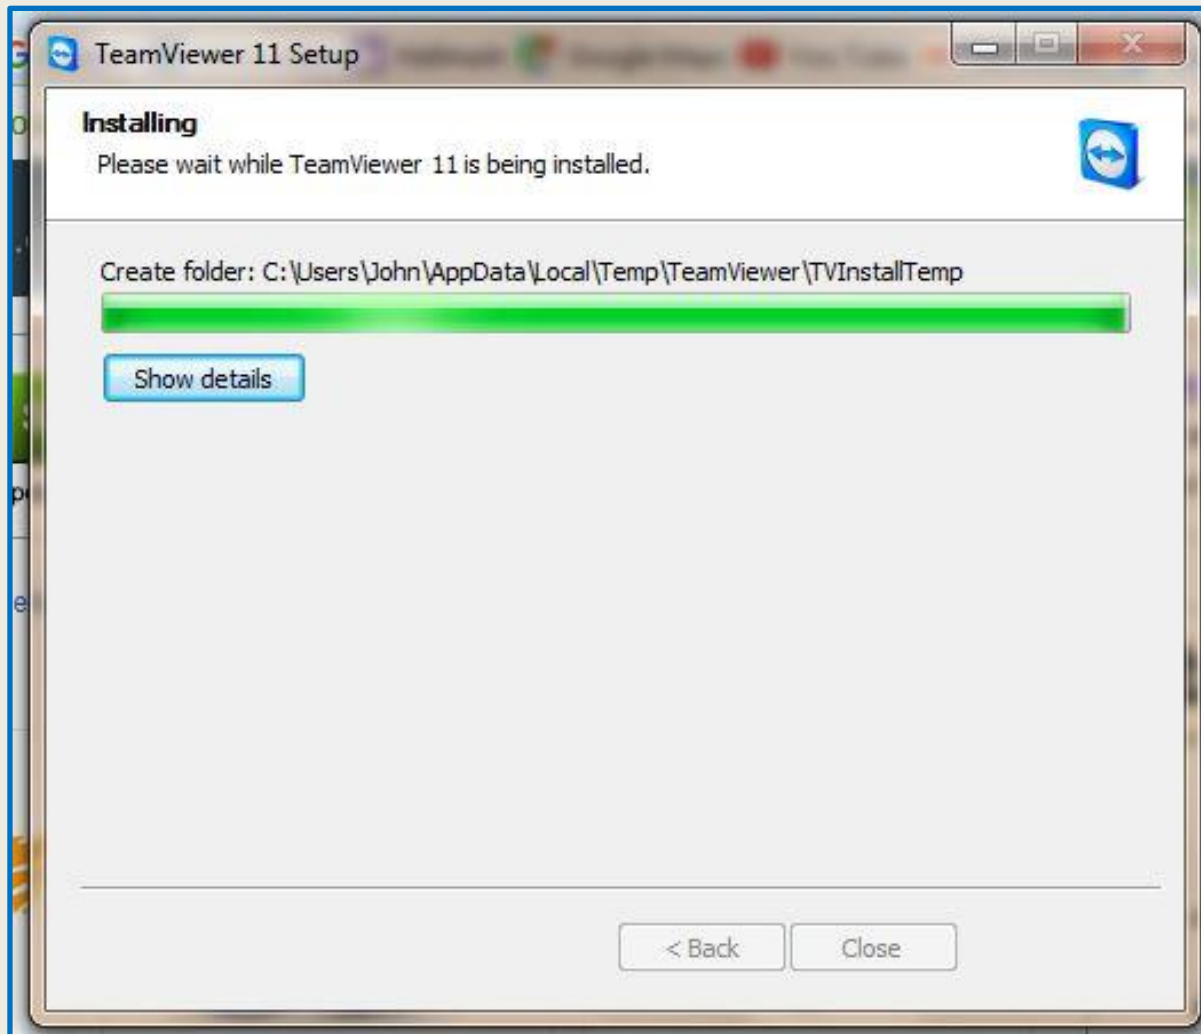

Depending on where downloads are preset to be saved, you should see a down-arrow to click on and click on the .exe file

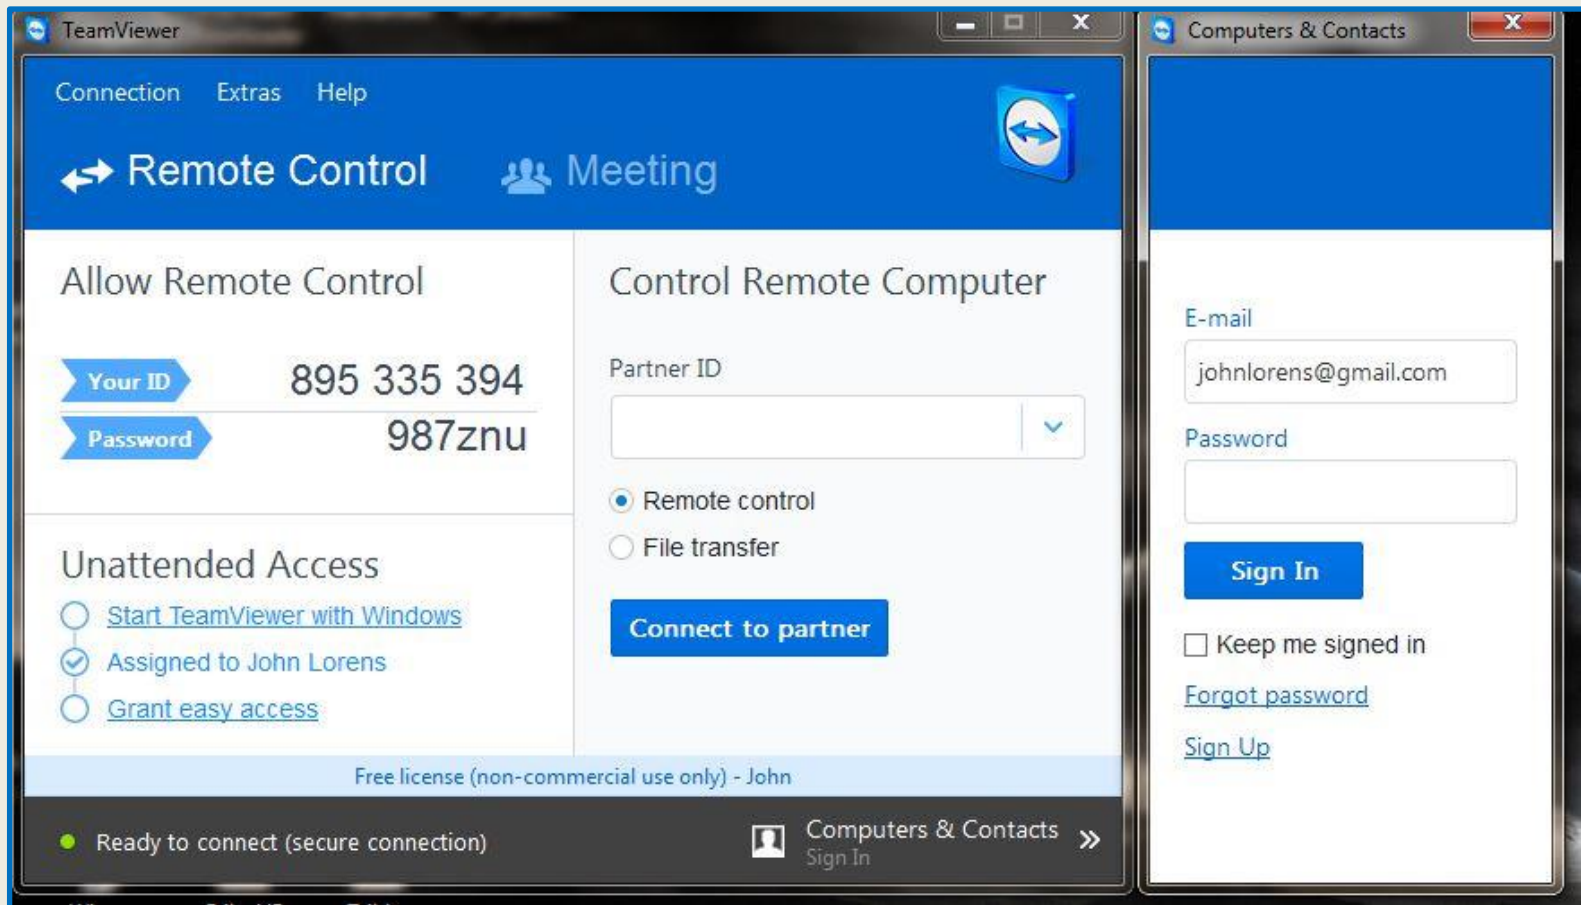

On this setup page, select the **Basic installation** and the **Personal/Non-commercial** use radial buttons

Teamviewer will now install on your computer and place an icon on your desktop.

Double click desktop icon to bring up this Remote Control screen. Tech Support logging into your computer will ask for Your ID # like 895 335 394. Then give your Password # such as “987znu”. Soon they will have remote access to your computer and you can observe their actions. When they log off, this session is over. Note for your protection, each session begins with new, unique numbers.
