## New 24/7 Hold Lockers

Step up to the bright, green lockers at the Main Library to pick up materials any time, day or night.

To use our convenient 24/7 Hold Lockers, patrons will need their MPPL library card and PIN. To start:

- Place a hold using the catalog at [mppl.org](http://mppl.org) or mobile app.
- Choose "24/7 Lockers" as the location from the drop-down menu.

When holds are ready, we notify users via text, email, or phone. We hold items for five days.

Find the lockers outside the lower-level entrance of the Main Library parking garage. To open the locker doors to access items, enter the library card number — or scan your card's barcode using the app — and enter your PIN on the touchscreen. Materials may be in multiple lockers, depending on the number of items and size.

Some items may not be eligible for pickup from hold lockers, including interlibrary loan materials or larger items.

What do you think of this service? Tell us or send a photo at [communications@mppl.org](mailto:communications@mppl.org).

## SMITHSONIAN EXHIBITION HIGHLIGHTS

# The History of Women Inventors

*If you named an inventor, would it be a woman?*

Throughout the month of March, come see **Picturing Women Inventors** at the Main Library, a poster exhibition that explores the inventions of 19 highly accomplished American women.

The exhibit from The Smithsonian and the United States Patent and Trademark Office showcases breakthroughs, motivations, and challenges women encountered while pursuing their goals as inventors. The remarkable group includes astronauts, computer pioneers, and businesswomen, as well as athletes, engineers, and teens.

Highlights from the exhibit include Marilyn Hamilton who, after a hang-gliding accident in 1978 left her paralyzed, invented a lightweight wheelchair. Inventor Alexis Lewis, when she was 12 years old, adapted a traditional Native American sled — called a travois — to transport families and their belongings in Somalia.

**Picturing Women Inventors** is organized by the Smithsonian Institution Traveling Exhibition Service, in collaboration with the Lemelson Center for the Study of Invention and Innovation and the United States Patent and Trademark Office, and is sponsored by Lyda Hill Philanthropies IF/THEN Initiative and Ericsson.
