Students Give South Branch an Artistic Touch

Families from John Jay Elementary and Robert Frost schools visited the South Branch this winter to see the display of snowmen contributed by students from both schools.

MPPL staff sent blank snowmen out in November, and students decorated, then returned, more than 100 that were hung from the ceiling of the Library, located in the Community Connections Center.

This is not the first time South Branch librarians have reached out to, and worked with, local schools. Staff visited John Jay during the school's Goal-Setting Conferences to talk about Library services and encourage families to sign up for cards. Library staff also visited Robert Frost School during the Summer Reading program, promoting Library use and reading during vacation months.

Topic: *The Middle East*

The Middle East continues to be a global hot spot. Who are the major players? What are their goals? Is there room for compromise? Can there ever be peace? What should the role of the U.S. be in this area?

Friday, April 17, 7:30 p.m.

Topic: *Cuba*

Only 90 miles away from the United States, Cuba's history is often entwined with our own. From the Cuban war for independence, the sinking of The Maine, the Castro-led Cuban Revolution, the Bay of Pigs invasion, and the Missile Crisis, this small country has been a key player in U.S. foreign policy. In 1961 the United States severed all diplomatic relations with Cuba. This was followed by a trade embargo in 1962. Now, the current administration has decided to reestablish diplomatic relations with Cuba. What caused this shift? What do you think the outcome will be?
