### FINANCIAL SECTION

### This section includes:

- Independent Auditors' Report
- Management's Discussion and Analysis
- Basic Financial Statements
- Required Supplementary Information
- Other Supplementary Information

This section includes the opinion of the Library's independent auditing firm.

### INDEPENDENT AUDITORS' REPORT

June 12, 2023

The Honorable President Members of the Board of Trustees Mount Prospect Public Library Mount Prospect, Illinois

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Mount Prospect Public Library, Illinois, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Mount Prospect Public Library, Illinois, as of December 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Library, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and GASB-required pension and other post-employment benefit (OPEB) reporting, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Mount Prospect Public Library, Illinois June 12, 2023

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mount Prospect Public Library, Illinois' basic financial statements. The other supplementary information is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

LAUTERBACH & AMEN, LLP

### MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis December 31, 2022

Our discussion and analysis of the Mount Prospect Public Library's financial performance provides an overview of the Library's financial activities for the fiscal year ended December 31, 2022. Please read it in conjunction with the Library's financial statements.

### FINANCIAL HIGHLIGHTS

- The Library's net position increased from \$22,735,714 beginning balance, to \$26,314,142, an increase of \$3,578,428 or 15.7 percent.
- During the year, government-wide revenues totaled \$12,227,353, while government-wide expenses totaled \$8,648,925, resulting in an increase to net position of \$3,578,428.
- Total fund balances for the governmental funds were \$14,002,213 at December 31, 2022 compared to a prior year restated balance of \$12,711,435, an increase of \$1,290,778 or 10.2 percent.

### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances.

For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Library's operation in more detail than the government-wide statements by providing information about the Library's most significant funds.

### **Government-Wide Financial Statements**

The government-wide financial statements provide readers with a broad overview of the Library's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the Library's assets/deferred outflows and liabilities/ deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Library's property tax base, is needed to assess the overall health of the Library.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the Library that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the Library include the culture and recreation function.

Management's Discussion and Analysis December 31, 2022

### **USING THIS ANNUAL REPORT - Continued**

### **Government-Wide Financial Statements - Continued**

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Library only maintains governmental funds.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Library maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Working Cash Fund, the Debt Service Fund, and the Capital Projects Restricted Fund, which are considered a major funds. Data from the other governmental fund, the Gift Fund, is presented as a nonmajor fund.

The Library adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Library's I.M.R.F. employee pension obligations and the progress in funding its obligation to required employee retirement plans and retiree benefit plans, as well as budgetary comparison schedules for the General Fund and the Working Cash Fund.

Management's Discussion and Analysis December 31, 2022

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. The following table shows that in the case of the Library, assets/deferred outflows exceeded liabilities/deferred inflows by \$26,314,142.

	Net Position		
	2022	2021	
Current and Other Assets	\$ 28,820,838	25,959,625	
Capital Assets	12,412,518	12,989,267	
Total Assets	41,233,356	38,948,892	
Deferred Outflows	933,889	1,167,026	
Total Assets/Deferred Outflows	42,167,245	40,115,918	
Long-Term Debt	433,094	546,590	
Other Liabilities	351,235	1,959,887	
Total Liabilities	784,329	2,506,477	
Deferred Inflows	15,068,774	14,873,727	
Total Liabilities/Deferred Inflows	15,853,103	17,380,204	
Net Position			
Net Investment in Capital Assets	12,412,518	11,439,267	
Restricted	8,654,525	7,632,038	
Unrestricted	5,247,099	3,664,409	
Total Net Position	26,314,142	22,735,714	

A large portion of the Library's net position (\$12,412,518 or 47.2 percent) reflects its investment in capital assets (for example, land, permanent art, construction in progress, buildings and improvements, equipment, and books), less any related debt used to acquire those assets that is still outstanding. The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

An additional portion or \$8,654,525 (32.9 percent) of the Library's net position represents resources that are subject to external restrictions on how they may be used, including \$572,901 restricted for specific donor purposes, \$2,116,046 restricted for working cash, \$732,807 restricted for debt service, and \$5,232,771 restricted for capital projects.

The remaining \$5,247,099 (19.9 percent) represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis December 31, 2022

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

	Change in Net Position		
	2022		
Revenues			_
Program Revenues			
Charges for Services	\$	37,350	22,631
Operating Grants/Contributions		105,580	80,796
General Revenues			
Property Taxes		11,715,852	11,436,462
Intergovernmental - Unrestricted			
Personal Property Replacement Taxes		187,918	92,704
Miscellaneous		32,830	22,526
Interest		147,823	6,668
Total Revenues		12,227,353	11,661,787
Expenses			
Culture and Recreation		8,620,058	9,226,461
Interest on Long-Term Debt		28,867	58,775
Total Expenses		8,648,925	9,285,236
Change in Net Position		3,578,428	2,376,551
Net Position - Beginning		22,735,714	20,359,163
Net Position - Ending		26,314,142	22,735,714

Net position of the Library's governmental activities increased from a balance \$22,735,714, to \$26,314,142.

Revenues of \$12,227,353 exceeded expenses of \$8,648,925, resulting in the increase to net position in the current year of \$3,578,428.

Management's Discussion and Analysis December 31, 2022

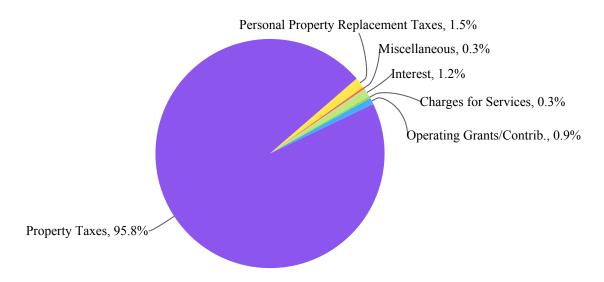

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

### **Governmental Activities**

In the current year, governmental net position increased \$3,578,428, an increase of 15.7 percent. This increase is mainly due to lower expenses in the current fiscal year, related to decreases in the net pension liability/(asset) and related items. Total expenses decreased \$636,311 over the prior year (\$9,285,236 in 2021 compared to \$8,648,925 in 2022).

The following table graphically depicts the major revenue sources of the Library. It depicts very clearly the reliance of property taxes to fund governmental activities.

### **Revenues by Source - Governmental Activities**

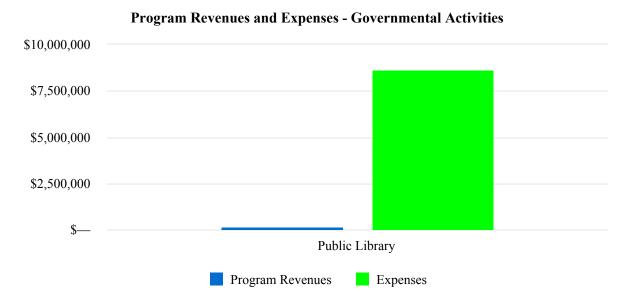

The 'Expenses and Program Revenues' Table identifies those governmental functions where program expenses greatly exceed revenues. The public library function charges user fees for services provided. The user fees charged do not cover the expenses, which furthermore signifies the Library's reliance on general revenues such as property taxes to fund operations.

Management's Discussion and Analysis December 31, 2022

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

### **Governmental Activities - Continued**

### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### **Governmental Funds**

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$14,002,213 which is 10.2 percent more than last year's fund balance of \$12,711,435.

In the current year, governmental fund balances increased by \$1,290,778. The General Fund reported an increase of \$270,874 (or 5.3 percent) to fund balance due to increases in property and personal property replacement taxes.

The Working Cash Fund reported a decrease of \$96,160 or (4.3) percent) to fund balance due to a year-end transfer out to the General Fund of \$96,160.

The Debt Service Fund reported an increase of \$16,161 (or 2.3 percent) to fund balance due to an increase in interest income.

The Capital Projects Restricted Fund reported an increase of \$1,097,531 (or 26.5 percent) to fund balance primarily due to a year-end transfer in from the General Fund of \$1,200,000 for use on future capital projects.

Management's Discussion and Analysis December 31, 2022

### GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, there was no supplementary appropriations made to the General Fund.

The General Fund actual revenues were higher than budgeted revenues. Actual revenues for the current year were \$10,555,746, compared to budgeted revenues of \$10,281,159. This resulted primarily from all revenue categories came in higher than budgeted, with the most significant being actual personal property replacement taxes of \$187,918 exceeding budgeted revenues by \$135,918.

The General Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$9,181,032, while budgeted expenditures totaled \$9,705,724. This was due primarily to substantial savings realized versus the budgeted expenditures in the areas of salaries, social security, medical and life, insurance, along with smaller savings on other budget line items, such as contract services and printing.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

### **Capital Assets**

The Library's investment in capital assets for its governmental activities as of December 31, 2022 was \$12,412,518 (net of accumulated depreciation). This investment in capital assets includes land, permanent art, construction in progress, buildings and improvements, equipment, and books.

	Capital Assets - Net of Depreciation		
		2022	2021
Land	\$	677,552	677,552
Permanent Art		329,212	329,212
Construction in Progress			90,838
Buildings and Improvements	1	10,286,320	10,760,914
Equipment		372,787	345,217
Books		746,647	785,534
Total	1	12,412,518	12,989,267

This year's additions to capital assets included:

Equipment	\$ 56,058
Books	321,896
	377,954

Additional information on the Library's capital assets can be found in Note 3 of this report.

Management's Discussion and Analysis December 31, 2022

### **CAPITAL ASSETS AND DEBT ADMINISTRATION - Continued**

### **Debt Administration**

At year-end, the Library no outstanding debt as compared to \$1,550,000 the previous year, a decrease of 100.0 percent. The following is a comparative statement of outstanding debt:

	Lon	Long-Term Debt Outstanding		
		2022	2021	
Intergovernmental Payable	\$		1,550,000	

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The equalized assess valuation (EAV) for the Library for fiscal year 2022 is \$1,846,400,810. This represents a decrease in EAV of \$144,942,172 from prior year's EAV.

### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Library's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Executive Director, Mount Prospect Public Library, 10 South Emerson Street, Mount Prospect, Illinois 60056.

### **BASIC FINANCIAL STATEMENTS**

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of the Governmental Funds to the Statement of Activities - Governmental Activities

For the Fiscal Year Ended December 31, 2022

Net Change in Fund Balances	\$ 1,290,778
Amounts reported in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital Outlays	377,954
Depreciation Expense	(954,703)
Disposal of Capital Assets - Cost	(425,652)
Disposal of Capital Assets - Accumulated Depreciation	425,652
An addition to a net pension asset is not considered to be an increase in a financial asset in the governmental funds.	
Change in Net Pension Asset - IMRF	2,803,371
The net effect of deferred outflows (inflows) of resources related to the pensions not reported in the funds.	
Change in Deferred Items - IMRF	(1,483,992)
Change in Deferred Items - RBP	(119,192)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal on long-term debt consumes the current financial resources of the governmental funds.	
Change in Compensated Absences Payable	(9,335)
Change in Total OPEB Liability - RBP	120,964
Retirement of Debt	1,550,000
Change in Accrued Interest Payable	2,583
Changes in Net Position	3,578,428

Notes to the Financial Statements December 31, 2022

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Mount Prospect Public Library (the Library), is located in Cook County, Illinois. The Library is governed by a seven-member Library Board of Trustees that is separately elected. The Library Board of Trustees selects management staff and directs the affairs of the Library.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles in the United States (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP in the United States for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Library's accounting policies established in GAAP in the United States and used by the Library are described below.

#### REPORTING ENTITY

In determining the financial reporting entity, the Library complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Library. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

#### **BASIS OF PRESENTATION**

### **Basic Financial Statements**

The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's governmental funds). The Library's public library services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities column is: (a) presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Library first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of the Library's functions. The Library's activities are supported by taxes and intergovernmental revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Notes to the Financial Statements December 31, 2022

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### **BASIS OF PRESENTATION - Continued**

#### **Fund Financial Statements**

The financial transactions of the Library are reported in an individual fund in the fund financial statements. The fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, reserves, fund equity, revenues and expenditures/expenses. The Library's fund is reported in the: governmental category. The emphasis in fund financial statements is on the major fund and is summarized into a single column.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses) for the determination of major funds.

A fund is considered major if it is the primary operating fund of the Library or total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund are at least 10 percent of the corresponding total for all governmental funds combined.

The various funds are reported by generic classification within the financial statements. The following fund type is used by the Library:

### **Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Library:

*General Fund* is the general operating fund of the Library. It accounts for all revenues and expenditures of the Library which are not accounted for in other funds. The General Fund is a major fund.

Special Revenues Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Library maintains two special revenue funds. The Working Cash Fund, developed through a prior property tax levy, is treated as a major fund and is used to account for the amounts maintained to provide a source of cash for short-term interfund borrowing. The Gift Fund is treated as a nonmajor fund.

Debt Service Fund is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Debt Service Fund is treated as a major fund and is used to account for the servicing of general long-term debt.

Capital Projects Funds are created to account for all resources used for the accumulation of funds for anticipated capital improvements. The Capital Projects Restricted Fund is treated as a major fund and is used to account for building related projects, maintenance, and repairs.

Notes to the Financial Statements December 31, 2022

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

### **Measurement Focus**

On the government-wide Statement of Net Position and the Statement of Activities, activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

The Library's fund utilizes a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. This fund uses fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

### **Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflows are incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Library recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability/deferred inflow is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Notes to the Financial Statements December 31, 2022

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

### **Cash and Investments**

For the purpose of the Statement of Net Position, the Library's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the Library's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

### Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

### Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances include property taxes.

### **Prepaids**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased.

### **Capital Assets**

Capital assets purchased or acquired with an original cost of \$3,000 (excluding the Library's book collection) or more, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Library as a whole. When purchased, such assets are recorded as expenditures in the governmental fund and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Notes to the Financial Statements December 31, 2022

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

### **Capital Assets - Continued**

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements 40 Years
Equipment 5 - 10 Years
Books 5 Years

### **Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

### **Compensated Absences**

The Library accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

### **Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements December 31, 2022

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

#### **Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

## NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

### **BUDGETARY INFORMATION**

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the General, Working Cash, Gift, Debt Service and Capital Projects Restricted Funds by function and activity and include information on the past year, current year estimates and requested appropriations for the next fiscal year. The proposed budgets are presented to the Library Board of Trustees for review. This governing body holds public meetings and may add to, subtract from or change appropriations. The budgets may be amended by the governing body. State statutes and local ordinances require that the budget be approved before the beginning of the fiscal year.

Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, there were no supplementary appropriations made.

### EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN AN INDIVIDUAL FUND

The following fund had an excess of actual expenditures over budget as of the date of this report:

 Fund	Excess	
		_
Gift	\$	876

Notes to the Financial Statements December 31, 2022

#### **NOTE 3 - DETAIL NOTES ON ALL FUNDS**

### **DEPOSITS AND INVESTMENTS**

The Library maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments."

Permitted Deposits and Investments - Statutes authorize the Library to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds.

Illinois Funds is an investment pool managed by the Illinois public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

## Interest Rate Risk, Credit Risk, Custodial Credit Risk, and Concentration Risk

*Deposits*. At year-end, the carrying amount of the Library's deposits totaled \$4,450,253 and the bank balances totaled \$4,479,922. Additionally, at year-end the Library has \$7,209,018 invested in the Illinois Funds.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. It is the policy of the Library to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Library and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety of principal, liquidity, rates of return and simplicity of management. The Library limits its exposure to interest rate risk by investing solely in an AAA rated external investment pool - Illinois Funds. The Library's investment policy does not address the maturity length of investments. The average maturity of the Illinois Funds is less than one year.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Library limits its exposure to credit risk by primarily investing in an external investment pool, Illinois Funds, which is rated AAAm by Standard & Poor's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. Deposits in excess of FDIC insurance are required to be collateralized in accordance with the Library's investment policy. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Library's investment policy does not address custodial credit risk for investments. At year-end, the Library's investments in the Illinois Funds are not subject to custodial credit risk.

Notes to the Financial Statements December 31, 2022

#### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

### **DEPOSITS AND INVESTMENTS - Continued**

## Interest Rate Risk, Credit Risk, Custodial Credit Risk, and Concentration Risk - Continued

Concentration Risk. This is the risk of loss attributed to the magnitude of the Library's investment in a single issuer. The Library's investment policy places no limit on the amount that may be invested in any one issuer, stating only that the Library diversify its investments to the best of its ability based on the nature of the funds invested and the cash flow needs of those funds. At year-end, the Library does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

### PROPERTY TAXES

Property taxes for 2022 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about March 1, and September 1. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 2% of the tax levy, to reflect actual collection experience.

### INTERFUND BALANCES

Interfund balances result from the time lag between when transactions are recorded in the accounting system and payments between funds are made. The composition of interfund balances as of the date of this report, is as follows:

Receivable Fund	Payable Fund	Amount
Capital Projects Gift	General General	\$ 1,226,697 572,901
		1,799,598

#### INTERFUND ADVANCES

Individual fund advances are as follows:

Receivable Fund	Payable Fund	Amount
Working Cash	General	\$ 2,116,046
Working Cash	General	\$ 2,1

Interfund advances represent payments of tax increment financing expenditures on behalf of these funds. These amounts will be paid over several years.

Notes to the Financial Statements December 31, 2022

## **NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued**

## **Interfund Transfers**

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount	
General	Working Cash	\$ 96,160	(1)
Capital Projects Restricted	General	1,200,000	(2)
		 1,296,160	

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) to move unrestricted revenues collected in the General Fund to finance various programs or capital projects accounted for in other funds in accordance with budgetary authorizations.

### **CAPITAL ASSETS**

Capital asset activity for the year was as follows:

	Beginning			Ending
	Balances	Increases	Decreases	Balances
Nondepreciable Capital Assets				
Land	\$ 677,552	_	_	677,552
Permanent Art	329,212		_	329,212
Construction in Progress	90,838		90,838	
	1,097,602		90,838	1,006,764
Depreciable Capital Assets				
<b>Buildings and Improvements</b>	18,966,098		_	18,966,098
Equipment	1,603,114	146,896	_	1,750,010
Books	5,084,041	321,896	425,652	4,980,285
	25,653,253	468,792	425,652	25,696,393
Less Accumulated Depreciation				
<b>Buildings and Improvements</b>	8,205,184	474,594	_	8,679,778
Equipment	1,257,897	119,326		1,377,223
Books	4,298,507	360,783	425,652	4,233,638
	13,761,588	954,703	425,652	14,290,639
Total Net Depreciable Capital Assets	11,891,665	(485,911)		11,405,754
Total Net Capital Assets	12,989,267	(485,911)	90,838	12,412,518

Depreciation expense of \$954,703 was charged to the culture and recreation function.

Notes to the Financial Statements December 31, 2022

## **NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued**

## LONG-TERM DEBT

## **Intergovernmental Payable**

The Village and Library have an intergovernmental agreement for the Library's portion of bonds issued on their behalf. The amount of the Library's intergovernmental payable currently outstanding is as follows:

Issue	Beginning Balances	Issuances	Retirements	Ending Balances
Intergovernmental Payable of 2016 - Due in annual installments of \$1,375,000 to \$1,550,000 plus interest at 2.00% to 3.00% through December 1, 2022.	\$ 1,550,000	_	1,550,000	_

## **Long-Term Liability Activity**

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balances	Additions	Deductions	Ending Balances	Amounts Due within One Year
Compensated Absences Total OPEB Liability - RBP Intergovernmental Payable	\$ 141,439 433,439 1,550,000	18,670 — —	9,335 120,964 1,550,000	150,774 312,475	30,155
	967,704	18,670	4,483,670	(3,497,296)	30,155

The General Fund makes payments on the compensated absences and the total OPEB liability. The Debt Service Fund makes payments on the intergovernmental payable.

Notes to the Financial Statements December 31, 2022

#### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

### **NET POSITION/FUND BALANCES - Continued**

### **Fund Balance Classifications - Continued**

In the governmental funds financial statements, the Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance.* Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Library's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance*. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy*. The Library's policy manual states that the Working Cash Fund and the Library General Fund should maintain a combined fund balance equal to 50% to 75% of the annual operating budget.

Notes to the Financial Statements December 31, 2022

#### **NOTE 4 - OTHER INFORMATION**

### RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Library's employees. The Library has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. Medical insurance is through the Village with third-party indemnity coverage. The Library currently reports all its risk management activities in the General Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

## **Public Entity Risk Pool**

The Library participates in LIRA (Libraries of Illinois Risk Agency), a public entity risk pool with the transfer of risk. The Library is responsible for an annual premium payment and the pool is responsible for administering the program. If funds are insufficient in the judgment of the pool, the pool may assess the members' additional equal payments. The Library's policy is to record any related expenditures in the year in which they are notified of any additional assessments. The Library is not aware of any additional assessments owed as of December 31, 2022.

### **CONTINGENT LIABILITIES**

## Litigation

The Library is not a defendant in any lawsuits.

## **Grants**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Library expects such amounts, if any, to be immaterial.

## EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

### Illinois Municipal Retirement Fund (IMRF)

The Library contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at <a href="https://www.imrf.org">www.imrf.org</a>. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Notes to the Financial Statements December 31, 2022

#### **NOTE 4 - OTHER INFORMATION - Continued**

### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

## Illinois Municipal Retirement Fund (IMRF) - Continued

## **Plan Descriptions**

*Plan Administration*. All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2021, the measurement date, the following employees were covered by the benefit terms:

Active Plan Members 92

Notes to the Financial Statements December 31, 2022

#### **NOTE 4 - OTHER INFORMATION - Continued**

### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

## Illinois Municipal Retirement Fund (IMRF) - Continued

## **Plan Descriptions - Continued**

A detailed breakdown of IMRF membership for the Village and the Library combined is available in the Village's comprehensive annual financial report.

Contributions. As set by statute, the Library's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2022, the Library's contribution was 8.11% of covered payroll.

*Net Pension (Asset)*. The Library's net pension (asset) was measured as of December 31, 2021. The total pension liability used to calculate the net pension (asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2021, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	3.25%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Notes to the Financial Statements December 31, 2022

#### **NOTE 4 - OTHER INFORMATION - Continued**

### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

## Illinois Municipal Retirement Fund (IMRF) - Continued

## **Plan Descriptions - Continued**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Actuarial Assumptions - Continued.

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	25.00%	(0.60 %)
Domestic Equities	39.00%	1.90 %
International Equities	15.00%	3.15 %
Real Estate	10.00%	3.30 %
Blended	10.00%	1.70% - 5.50%
Cash and Cash Equivalents	1.00%	(0.90 %)

### **Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as the prior year. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Library contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

## **Discount Rate Sensitivity**

The following is a sensitivity analysis of the net pension (asset) to changes in the discount rate. The table below presents the net pension (asset) of the Library calculated using the discount rate as well as what the Library's net pension (asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

## Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2022, the Library recognized pension revenue of \$919,760. At December 31, 2022, the Library reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Ι	Deferred	Deferred	
	Outflows of		Inflows of	
	R	esources	Resources	Totals
Difference Between Expected and Actual Experience	\$	438,963	(257,135)	181,828
Change in Assumptions			(90,593)	(90,593)
Net Difference Between Projected and Actual				
Earnings on Pension Plan Investments			(3,976,527)	(3,976,527)
Total Expense to be Recognized in Future Periods		438,963	(4,324,255)	(3,885,292)
Contributions Subsequent to the Measurement Date		404,922		404,922
Total Deferred Amounts Related to IMRF		843,885	(4,324,255)	(3,480,370)

\$404,922 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended December 31, 2023. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Net Deferred

### OTHER POST-EMPLOYMENT BENEFITS

### General Information about the OPEB Plan

*Plan Description.* The Library's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general employees of the Library. RBP is a single-employer defined benefit OPEB plan administered by the Library. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the Library Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. RBP provides pre and post Medicare post-employment healthcare benefits to all retirees, their spouses and dependents (enrolled at time of employee's retirement). To be eligible for benefits, the employee must qualify for retirement under the Library's retirement plan. The retirees pay the blended premium. Upon a retiree becoming eligible for Medicare, the amount payable under the Villages's health plan will be reduced by the amount payable under Medicare for those expenses that are covered under both.

All health care benefits are provided through the Village's health insurance plans. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous, and substance abuse care; vision care; and prescriptions. Upon a retiree reaching 65 years of age, Medicare becomes the primary insurer and the Village's plan becomes secondary.

*Plan Membership.* As of December 31, 2022, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	6
Inactive Plan Members Entitled to but not yet Receiving Benefits	_
Active Plan Members	73
Total	79

## **Total OPEB Liability**

The Library's total OPEB liability was measured as of December 31, 2022, and was determined by an actuarial valuation as of December 31, 2022.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Notes to the Financial Statements December 31, 2022

## **NOTE 4 - OTHER INFORMATION - Continued**

## **OTHER POST-EMPLOYMENT BENEFITS - Continued**

## **Total OPEB Liability - Continued**

Actuarial Assumptions and Other Inputs - Continued.

Inflation	2.50%
Salary Increases	3.25%
Discount Rate	4.31%
Healthcare Cost Trend Rates	7.50% for Initial Rate, to an ultimate rate of 4.50% for 2029 and later years
Retirees' Share of Benefit-Related Costs	100% of projected health insurance premiums for retirees

The discount rate was based on the S&P Municipal Bond 20 year high-grade rate index rate for tax exempt general obligation municipal bonds rated AA or better at December 31, 2022.

Mortality rates were based on SOA Pub-2010 General Headcount weighted mortality table fully generational using Scale MP-2021.

## OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

## Such schedules include:

- Budgetary Comparison Schedule Major Governmental Funds
- Budgetary Comparison Schedules Nonmajor Governmental Fund

## INDIVIDUAL FUND DESCRIPTIONS

#### **GENERAL FUND**

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

#### SPECIAL REVENUE FUNDS

## **Working Cash Fund**

The Working Cash Fund is used to account for the amounts maintained to provide a source of cash for short-term interfund borrowing.

### Gift Fund

The Gift Fund is used to account for donations received.

#### **DEBT SERVICE FUND**

The Debt Service Fund is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt.

## **CAPITAL PROJECTS FUND**

The Capital Projects Funds are used to account for all resources used for the acquisition of capital facilities by a governmental unit.

## **Capital Projects Restricted Fund**

The Capital Projects Restricted Fund is used to account for building related projects, maintenance, and repairs.
