

MacStudio Quick Start Steps for Create a DVD with Toast

Step 1: Click on the Toast icon in the Dock at the bottom of the display.

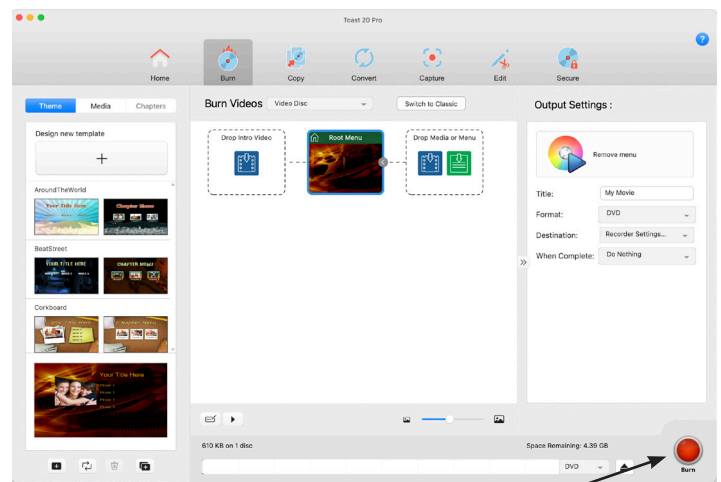

Step 2: On the opening screen select Burn DVD.

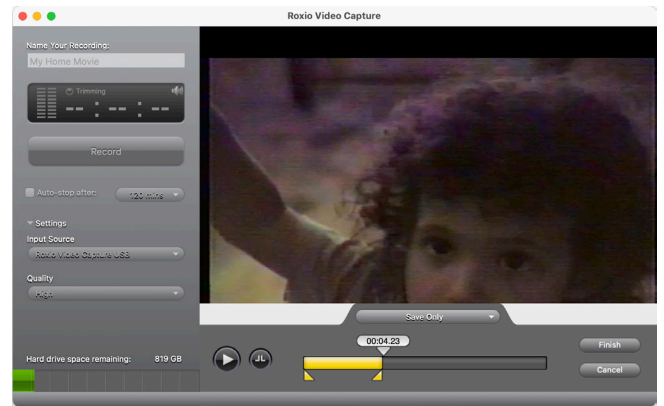

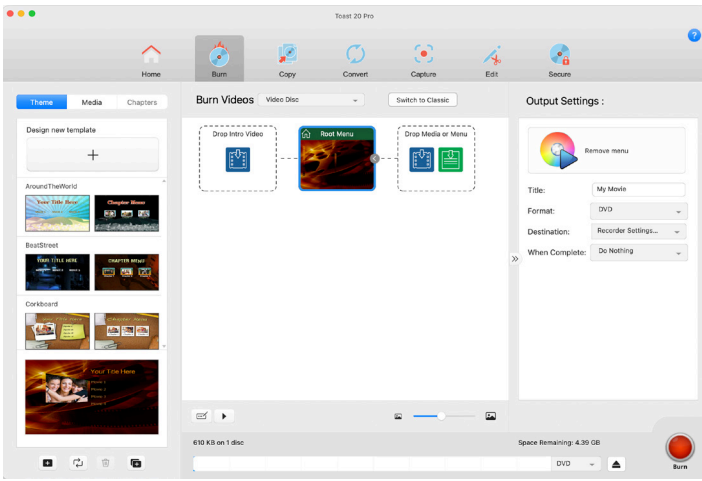

Step 3: Drag your video file from the Movies folder on the desktop and drop it here.

Another Drop Media icon will open where you can drop another video. When you are done move on to Step 4.

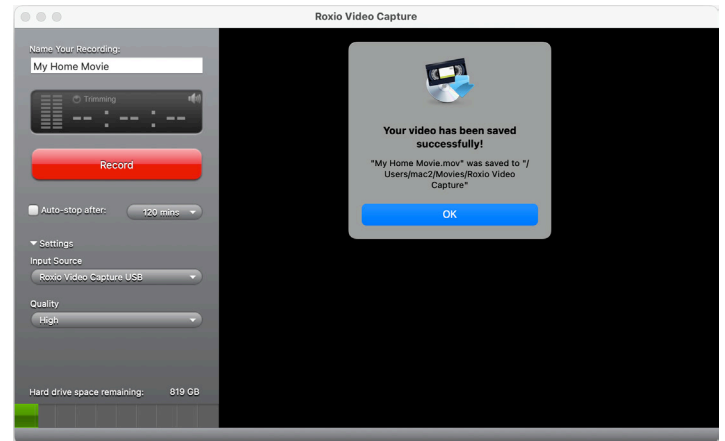

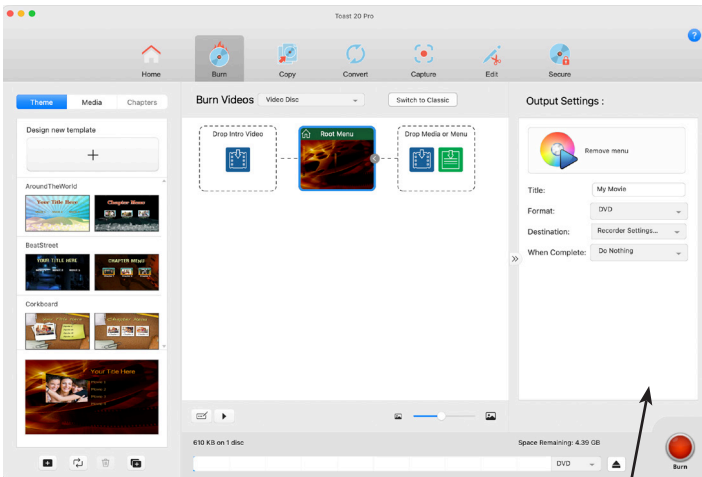

Step 4: Select the Burn button. When the DVD is ready you can eject it and close the application or burn another DVD.

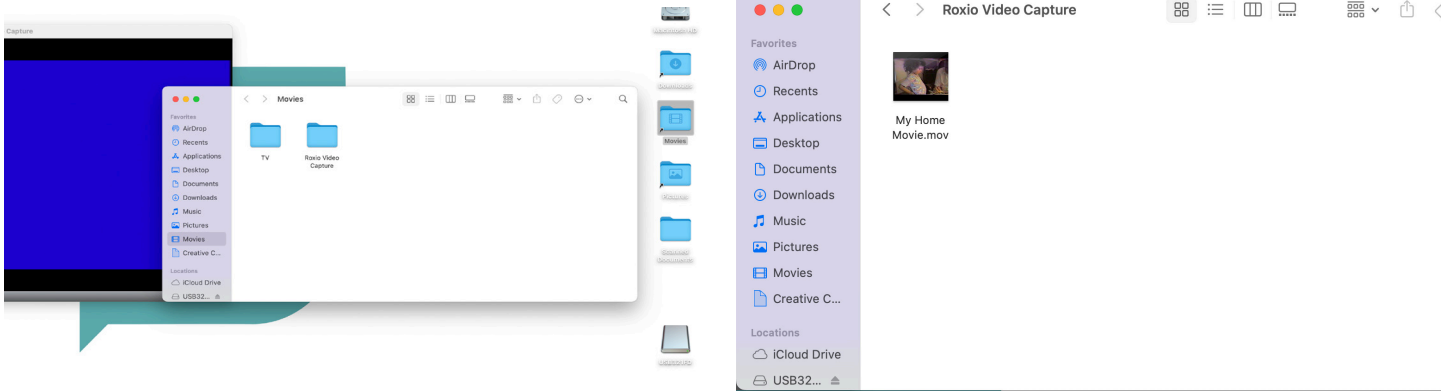

Step 5: Once you reach the end of your tape click on the record button again to stop recording.

Step 6: The yellow sliders at the bottom can be used to trim or to select a portion of the video.

Step 7: Once your selection has been completed click the finish button to save your video.

Step 8: A message will appear that confirms that your video has been successfully saved.

Mount Prospect Public Library

Step 9: To copy or open your file, open the Movies folder on the desktop.

Step 10: Open the Roxio Video Capture folder to reveal your file.

Be sure to save or move your files to your storage device.

For more information on saving your files or attaching your files to an email see the FAQ document “What should I do with my files?”
